NOW MORE THAN EVER ...
responding to AIDS saves lives

The International Council of AIDS Service Organizations (ICASO) is one of the international organizing partners of the International AIDS Conference. AIDS 2010 takes place in Vienna, Austria from July 18 - 23, 2010.

ICASO, in partnership with its Regional Secretariats - the African Council of AIDS Service Organizations (AfriCASO), AIDS Action Europe, the Asia Pacific Council of AIDS Service Organizations (APCASO), the Latin American and Caribbean Council of AIDS Service Organizations (LACCASO), and the North American Council of AIDS Service Organizations (NACASO), believes that the meaningful involvement of key population groups in the design and implementation of the AIDS Conference is pivotal to its success, and that the conference provides an important platform to discuss relevant issues to the community sector.

Come to the ICASO booth (#901) in the Global Village with your messages to world leaders telling them what needs to be done to ensure Universal Access. We'll post it on-site and online at aids2010community.org/makeadifference.
